Skills

Data Structure and Algorithm

Web Development (HTML, CSS, JavaScript)

C++

Python

SQL/DBMS

Git/Github

MongoDB

Java

Languages

English   100%

Hindi   100%

About me

Passionate and dedicated software engineer specializing in web development and cloud engineer. Equipped with a strong foundation in computer science, I showcase strong problem-solving and coding abilities. I am eager to enhance my skills and contribute to the community.

Projects

Intelligent tourist recommendation system

I developed an intelligent tourist recommendation system with Flask in Python, learning user input handling, dynamic content generation, and basic data filtering.

Wheather Monitoring System

I learned to integrate APIs, process JSON, and display real-time weather data using RESTful endpoints.

Certifications

Oracle Cloud Infrastructure 2024-(Generative AI Certfied Professional)
Microsoft azure fundamental

Education

(2022-2026)Bachelor of Engineering in Computer Science
Chandigarh University, Mohali
CGPA: 8.49

(2020-2022) Intermediate
Sacred Heart Higher Secondary School
Percentage:88.8%

Achievements

Solved 250+ questions of problem-solving on various platforms like Codeforces, Leetcode, GFG, etc.
